

CFFSC AXEL CLUB!

WHY did we create The CFFSC Axel Club?

- Setting goals is an important part of skill attainment, and keeping the athlete focused and motivated.
- Attaining and celebrating a goal encourages the skater to set further goals.

HOW does a skater qualify for this?

- A skater must complete 4 sequential clean single axels (no more than 2-3 steps in between each) as witnessed by their coach during a lesson. There are no scheduled tests by CFFSC.
- We want this goal to be attainable, however *we must maintain a high standard* for qualification. You may choose to share the provided video with your skaters as an example of what is expected, or create one of your own!

WHAT do we do when a skater qualifies for the Axel Club?

- The coach must complete the short Axel Club form (see next page) and leave this in the Axel Club folder.
- Forms and folder can be found in the CFFSC files behind front desk.

HOW is the skater recognized when they qualify?

- The skater will receive an Axel Club certificate and an "I joined the CFFSC Axel Club" pin/button for their skating bag. *These will be given to the coach* within a week and the coach can present it to their skater).
- We will recognize skaters timely on our Facebook page, and on our bulletin board and website during monthly updates.

WHEN will The Axel Club begin?

- We will kick-off this program on Tues, Sept 9, 2015.
- Any CFFSC skater may test and qualify, if desired, even if they've had a single axel for some time now.
- This will be an ONGOING program. Quality is desired over quick attainment.

Please welcome this CFFSC skater into the

AXEL CLUB!

I personally witnessed this skater complete **FOUR CONSECUTIVE** clean single axels, meeting the requirements to be recognized as a new member of the CFFSC AXEL CLUB!

Coach Name: _____

Coach Signature: _____ Date: _____

Skater Name: _____
